

Mohammad Hani Elsayed

Aqaba, Jordan | +962 789 131 034 | mohammadhani.ei7@gmail.com | linkedin.com/in/mhnai | github.com/ei7mo

SUMMARY

Motivated Information Technology student with hands-on experience in system maintenance, and full-stack development. Proficient in Python, JavaScript, and C++ with a strong foundation in algorithms and problem-solving. Eager to contribute to impactful software projects and grow in a professional development environment.

EDUCATION

Aqaba University of Technology

Aqaba, Jordan

Bachelor of Information Technology – GPA: 3.32 / 4.0

Nov. 2023 – Present

- Relevant Coursework: Software Engineering, Web Development (JavaScript), Data Structures & Algorithms (C++), Computer Networks

EXPERIENCE

IT Systems Technician

Dec. 2025 – Present

Mines Gaming Center

Aqaba, Jordan

- Diagnosed and resolved overheating issues across 20+ gaming PCs through thermal paste replacement, fan cleaning, and airflow optimization
- Configured and deployed new gaming stations including OS installation, driver setup, and a standardized library of games across all machines
- Troubleshoot network connectivity and latency issues including router IP configuration and ping optimization to ensure stable gaming sessions
- Developed a Windows Batch script to automate session cleanup on customer logout, deleting cache, temp files, and application data across multiple programs to protect customer privacy

PROJECTS

Currency Converter | JavaScript, HTML/CSS, REST API

2025

- Built a live currency converter using the CurrencyFreaks API to fetch real-time exchange rates for multiple currencies
- Implemented API integration with fetch requests, dynamic DOM updates, and error handling for failed requests

Quiz Application | JavaScript, HTML/CSS, JSON

2025

- Developed an interactive quiz app that dynamically loads questions from local JSON files and tracks user score
- Implemented question randomization, answer validation, and a results summary screen

Calculator | C#, Windows Forms

2025

- Designed and built a fully functional calculator application with support for parentheses, decimals, negative numbers, and all arithmetic operations
- Implemented clean event-driven UI logic using C# Windows Forms with a custom dark theme

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, C#, HTML/CSS, SQL, PL/SQL, Batch Script

Frameworks & Libraries: Windows Forms

Tools & Platforms: Git, GitHub, VS Code, Visual Studio

Concepts: REST APIs, OOP, Data Structures & Algorithms, Network Troubleshooting

Spoken Languages: Arabic (Native), English (Professional)
